April 9, 2014

The Vermont Community and Hospital Psychiatry Group supports more timely judicial reviews of involuntary treatment, including the exceptional circumstances that require a judicial order allowing for medically necessary medication to be given to individuals with severe psychiatric disorders.

Our group urges that the Vermont Legislature considers passage of S 287 as a high priority for the current legislative session.

Respectfully submitted by,

Robert C. Jimerson, M.D.
Medical Director of the Counseling Service of Addison County
Board Certified in Psychiatry
Chair of the Vermont community and Hospital Psychiatry Group
